Brain Teasers May 26 2022 To succeed in life, you must 'think outside the box'. This cliché is used to describe creative, non-standard approaches to problem solving. But how does one learn to 'think outside the box'? Unfortunately, there is no simple answer. Author Kiran Srinivas believes that you can significantly improve your thinking abilities, and this book will force you to think in ways you never have before. By sheer practice, you can increase your ability to think creatively. Many of the puzzles in this book will take hours, if not days, to solve, but be encouraged, a middle-school education is sufficient to answer almost all of the puzzles. There are many interview puzzles, and if you plan to interview at an investment bank, consulting firm, high-tech firm, or in any other related field, absorb what 'Brain Teasers' has to offer, as it can be the deciding factor in getting that offer.

An Audience of One Jan 22 2022 The creator of the Unmistakable Creative podcast makes a counterintuitive argument: By focusing your creative work on pleasing yourself, you can increase your

productivity, happiness, and (eventually, paradoxically) the size of your audience. Creating for your own pleasure--whether you're writing a novel, composing songs, or painting a landscape--can seem pointless. It's tempting to focus on pursuing money and fame, rather than the process itself. But as Sriniv Rao warns, creating then turns into a chore that can harm your self-esteem and suck the pleasure out of life, rather than being a source of joy. Rao, host of the podcast *The Unmistakable Creative*, argues that we should counter this thinking by intentionally creating art for ourselves alone--an audience of one. In this book he shares the fascinating true stories of creatives who took this path, along with actionable tips and the research of creativity experts. You'll learn, for example:

- How Oprah's intentional focus on her own work rather than the opinions of everyone else catapulted her into one of the most popular talk shows of all time.
- How being process-driven can not only help you produce more work, but can make you happier outside of your creative time.
- How to put together a creative "team of rivals" whose feedback can help you hone your craft and filter out useless feedback.

By playing to an audience of one, we can find more happiness, increased productivity, and a greater sense of community.

Winged Faith Dec 21 2021 "Tulasi Srinivas shows a superb ability to juxtapose contemporary theoretical concerns among scholars of globalization and transnational theory with ethnographic work done on a growing Indian tradition. Adept at negotiating the intricacies of many academic dialogues. Srinivas shows she is a polyglot intellectual."---Deepak Sarma, Case Western University The Sathya Sai global civil religious movement incorporates Hindu and Muslim practices, Buddhist, Christian, and Zoroastrian influences, and "New Age"-style rituals and beliefs. Shri Sathya Sai Baba, its charismatic and controversial leader, attracts several million adherents from various national, ethnic, and religious backgrounds. In a dynamic account of the Sathya Sai movement's explosive growth. *Winged Faith* argues for a rethinking of globalization and the politics of identity in a religiously plural world. This study considers a new kind of cosmopolitanism located in an alternate understanding of difference and contestation. It considers how acts of "sacred spectating" and illusion, "moral stake-holding" and the problems of community are debated and experienced. A thrilling study of a transcultural and transurban phenomenon that questions narratives of self and being circuits of sacred mobility, and the politics of affect. *Winged Faith* suggests new methods for discussing religion in a globalizing world and introduces an easily critiqued yet not fully understood community. "This is a wonderful book that can be read on two levels. One: as the fascinating story of how a religious movement spread from India throughout the world, with many vignettes that will stay in one's mind. And two: as a very instructive demonstration that cultural globalization is not a oneway process dominated by the West, but an interaction between cultures, with some processes going from East to West."---Peter L. Berger. Boston University

Interrogating Communalism Jul 24 2019 This book examines conflict and violence among religious minorities and the implication on the idea of citizenship in contemporary India. Going beyond the usual Hindu-Muslim question, it situates communalism in the context of conflicts between Muslims and Christians. By tracing the long history of conflict between the Marakkayar Muslims and Mukkuvar Christians in South India, it explores the notion of 'mobilization of religious identity' within the discourse on communal violence in South Asia as also discusses the spatial dynamics in violent conflicts. Including rich empirical evidence from historical and ethnographic material, the author shows how the contours of violence among minorities position Muslims as more vulnerable subjects of violent conflicts. The book will be useful to scholars and researchers of politics, political sociology, sociology and social anthropology, minority studies and South Asian studies. It will also interest those working on peace and conflict, violence, ethnicity and identity as also activists and policymakers concerned with the problems of fishing communities.

Unmistakable Jul 28 2022 Stop trying to beat everyone else. True success is playing by your own rules, creating work that no one can replicate. Don't be the best, be the only. You're on the conventional path, checking off accomplishments. You might be doing okay by normal standards, but you still feel restless, bored, and limited. Srinivas Rao gets it. As a new business school graduate, Srinivas's dreams were crushed by a soulless job that demanded only conformity. Sick of struggling to keep his head above water, Srinivas quit his job and took to the waves, pursuing his dream of learning to surf. He also found the freedom to chart his own course. Interviewing more than five hundred creative people on his Unmistakable Creative podcast was the ultimate education. He heard how guests including Seth Godin, Elle Luna, Tim Ferriss, Simon Sinek, and Danielle LaPorte blazed their own trails. Srinivas blends his own story with theirs to tell you: You can find that courage too. Don't be just one among many--be the only. Be unmistakable. Trying to be the best will chain you to others' definition of success. Unmistakable work, on the other hand, could only have been created by one person, so competition is irrelevant. Like Banksy's art or Tim Burton's films, unmistakable work needs no signature and has no precedent. Whether you're a business owner, an artist, or just someone who wants to leave your mark on the world, Unmistakable will inspire you to create your own path and define your own success.

The Cow in the Elevator Jul 16 2021 In *The Cow in the Elevator* Tulasi Srinivas explores a wonderful world where deities jump fences and priests ride in helicopters to present a joyful, imaginative, yet critical reading of modern religious life. Drawing on nearly two decades of fieldwork with priests, residents, and devotees, and her own experience of living in the high-tech city of Bangalore, Srinivas finds moments where ritual enmeshes with global modernity to create wonder—a feeling of amazement at being overcome by the unexpected and sublime. Offering a nuanced account of how the ruptures of modernity can be made normal, enrapturing, and even comical in a city swept up in globalization's tumult, Srinivas brings the visceral richness of wonder—apparent in creative ritual in and around Hindu temples—into the anthropological gaze. Broaching provocative philosophical themes like desire, complicity, loss, time, money, technology, and the imagination, Srinivas pursues an interrogation of wonder and the adventure of writing true to its experience. *The Cow in the Elevator* rethinks the study of ritual while reshaping our appreciation of wonder's transformative potential for scholarship and for life.

The Legend of Shara: How El-Shaddai Became Yahweh Feb 08 2021 The Legend of Shara records the story of a deity from the third millennium BC. It explains how multiple religions, like Judaism, Christianity, and Islam, came to absorb a story well-understood by many followers of Hinduism. We explore the Hindu origins of the early Torah and its deep Puranic roots along with the historical backdrop that produced the Patriarchs, the stories of David, and finally, Exodus. How closely are these stories tied to Puranic equivalents, and why do they follow the same structure and function that we see in Hindu MahaPuranas like the Matsya Purana? From its origins in the Rig Veda, we trace the flow of the legend of Shara along with the rest of its Puranic backdrop into the Hurrian lands. From here, we explore the journey into Judah and its return with the rise of Judaism in the Middle East.

Creative Lives and Works Dec 09 2020 Creative Lives and Works: Adrian C. Mayer, M.N. Srinivas, André Béteille and Johnathan Parry is a collection of interviews conducted by one of England’s leading social anthropologists and historians, Professor Alan Macfarlane. Filmed over a period of 40 years, the four conversations in this volume, are part of a larger set of interviews that cut across various disciplines, from the social sciences, the sciences to the performing and visual arts. The current volume, on four of the world’s foremost social anthropologists and sociologists, who have been closely associated with the British anthropological tradition, is the third in the series of several such books. These conversations focus primarily on fieldwork experience in India and how new dimensions and interpretations were added to the discipline of sociology and social anthropology as more and more primitive cultures and ancient civilizations were studied. This book brings out the diversity of the Indian subcontinent and its people through its engaging conversations and occasional anecdotes. Immensely riveting as conversations, this collection gives one a flavour of the many different cultures that coexist in a vast country like India, often with no knowledge of each other’s existence while de-jargonizing complex sociological concepts. The book will be of enormous value not just to those interested in the subject of Sociology, Social Anthropology and Ethnography, but also those with an avid interest in History, Culture Studies as well as those with an interest in learning about other societies. Please note: This title is co-published with Social Science Press, New Delhi. Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka.
