Flower Worlds Mar 03 2020 The recognition of Flower Worlds is one of the most significant breakthroughs in the study of Indigenous spirituality in the Americas. These worlds are solar and floral spiritual domains that are widely shared among both pre-Hispanic and contemporary Native cultures in Mesoamerica and the American Southwest. Flower Worlds is the first volume to bring together a diverse range of scholars to create a truly multidisciplinary understanding of Flower Worlds. During the last thirty years, archaeologists, art historians, ethnologists, Indigenous scholars, and linguists have emphasized the antiquity and geographical extent of similar Flower World beliefs among ethnic and linguistic groups in the New World. Flower Worlds are not simply ethereal, otherworldly domains, but rather they are embodied in lived experience, activated, invoked, and materialized through ritual practices, expressed in verbal and visual metaphors, and embedded in the use of material objects and ritual spaces. This comprehensive book illuminates the origins of Flower Worlds as a key aspect of religions and histories among societies in Mesoamerica and the American Southwest. It also explores the role of Flower Worlds in shaping ritual economies, politics, and cross-cultural interaction among Indigenous peoples. Flower Worlds reaches into multisensory realms that extend back at least 2,500 years, offering many different disciplines,

perspectives, and collaborations to understand these domains. Today, Flower Worlds are expressed in everyday work and lived experiences, embedded in sacred geographies, and ritually practiced both individually and in communities. This volume stresses the importance of contemporary perspectives and experiences by opening with living traditions before delving into the historical trajectories of Flower Worlds, creating a book that melds scientific and humanistic research and emphasizes Indigenous voices. Tulipomania Jul 07 2020 A vivid narration of the history of the tulip, from its origins on the barren, windswept steppes of central Asia to its place of honor in the lush imperial gardens of Constantinople, to its starring moment as the most coveted—and beautiful—commodity in Europe. In the 1630s, visitors to the prosperous trading cities of the Netherlands couldn't help but notice that thousands of normally sober, hardworking Dutch citizens were caught up in an extraordinary frenzy of buying and selling. The object of this unprecedented speculation was the tulip, a delicate and exotic Eastern import that had bewitched horticulturists, noblemen, and tavern owners alike. For almost a year rare bulbs changed hands for incredible and ever-increasing sums, until single flowers were being sold for more than the cost of a house. Historians would come to call it tulipomania. It was the first futures market in history, and like so many of the ones that would follow, it crashed spectacularly, plunging

speculators and investors into economic ruin and despair. This colorful cast of characters includes Turkish sultans, Yugoslav soldiers, French botanists, and Dutch tavern keepers—all centuries apart historically and worlds apart culturally, but with one thing in common: tulipomania.

The Flower of Paradise Oct 10 2020 This book concerns the use of the drug qat in North Yemen (Yemen Arab Republic), a country lying on the southwestern corner of the Arabian Peninsula. However, because this substance is so interwoven into the fabric of society and culture, it is also necessarily about Yemen itself. The history and culture of South Arabia are still relatively unknown to the rest of the world, and the drug qat, so widely used there, is equally unknown. Thus, the material we present here should be of interest to all of those concerned with drug use, those who wish to understand more

about Yemen and the Middle East, and to the Yemenis themselves. Another purpose is to develop some general understandings about substance uses and their effects which are less clouded by the mass hysteria and political considerations which often obscure drug issues in our own society. Examination of drug-use patterns in a country where millions of people are users on a regular basis, and where there has been familiarity with the drug for several hundred years, offers an opportunity to achieve perspectives not possible in countries with different attitudes and without such histories. I am not sanguine about the prospects of our abilities to learn from others or from the past, but I do not think we should abandon hope of doing so.

Snow Flower and the Secret Fan Feb 23 2022 Lily is haunted by memories—of who she once was, and of a person, long gone, who defined her existence. She has nothing but time now, as she recounts the tale of Snow Flower, and asks the gods for forgiveness. In nineteenth-century China, when wives and daughters were foot-bound and lived in almost total seclusion, the women in one remote Hunan county developed their own secret code for communication: nu shu (“women’s writing”). Some girls were paired with laotongs, “old sames,” in emotional matches that lasted throughout their lives. They painted letters on fans, embroidered messages on handkerchiefs, and composed stories, thereby reaching out of their isolation to share their hopes, dreams, and accomplishments. With the arrival of a silk fan on which Snow Flower has composed for Lily a poem of introduction in nu shu, their friendship is sealed and they become “old sames” at the tender age of seven. As the years pass, through famine and rebellion, they reflect upon their arranged marriages, loneliness, and the joys and tragedies of motherhood. The two find solace, developing a bond that keeps their spirits alive. But when a misunderstanding arises, their lifelong friendship suddenly threatens to tear apart. *Snow Flower and the Secret Fan* is a brilliantly realistic journey back to an era of Chinese history that is as deeply moving as it is sorrowful. With the period detail and deep resonance of *Memoirs of a Geisha*, this lyrical and

emotionally charged novel delves into one of the most mysterious of human relationships: female friendship.

Flower Aug 20 2021 These are the things that I've always wanted: To get the top grades in my class. To make my grandmother proud. And most of all, proof that I could succeed where the rest of my family had not: a Stanford acceptance letter, early admission. My mother and my sister were obsessed with boys and love and sex. So obsessed that they lost sight of their futures, of what they wanted. And in the end, they lost everything. I'll never let a boy distract me. I promised myself that. But that was before Tate. Before the biggest pop star on the planet took an interest in me. Before private planes and secret dates and lyrics meant for me alone. There's so much I don't know. Like why he left music. Where he goes when we're not together. What dark past he's hiding. But when we kiss, the future feels far away. And now...I'm not sure what I want.

The Flower Jan 25 2022 Brigg lives in a small, grey room in a large, grey city. When he finds a book in the library labelled 'Do Not Read', he cannot resist taking it home. In it, he comes upon pictures of bright, vibrant objects called flowers. He cannot find flowers anywhere in the city, but stumbles instead on a packet of seeds. This sets off a chain of events which bring about unexpected results, continuing to grow and bloom even after we have turned the last page. John Light's enigmatic story is told with utter simplicity, but resonates long after we finish reading this book. His increasingly optimistic vision is hauntingly captured by Lisa Evans's beautiful and whimsical illustrations.

Liu Ye: The Book Paintings Dec 12 2020 Chinese artist Liu Ye's subtle, colorful canvases convey his love of literature in the artist's first publication solely dedicated to his paintings of books. Beijing-based artist Liu Ye is known for his precise, deftly rendered representational paintings. Reminiscent of cartoons and illustrations in children's books, they include references to abstract artists such as Piet Mondrian. In this new publication devoted exclusively to his Book Paintings, the artist examines the book as both a physical object and cultural totem. He simultaneously stresses the geometry in the composition while always imbuing his paintings with his uniquely recognizable style. The result is a body of work that feels both alien and familiar. Liu's Book Painting series, begun in 2013, depicts closeup views of books that are turned open to reveal empty pages, a strategy that emphasizes the object's formal

qualities over its content. Intimately scaled, these paintings indicate an appreciation of the book as an object, as well as a love of literature—Liu’s father was a children’s book author who introduced him to Western writers at a young age, fueling his curiosity and imagination. Published on the occasion of a solo exhibition presented at David Zwirner, New York, in 2020, this catalogue includes new writing by the acclaimed poet Zhu Zhu and an interview with the artist by Hans Ulrich Obrist.

Cool Flowers Jul 27 2019 Everyone longs for fragrant spring blossoms – Snapdragons, Bells of Ireland, Sweet Peas, Sweet Williams and other beauties. But few grow them successfully in their own gardens because they haven't learned the simple techniques that make it possible. Expert flower grower Lisa Mason Zeigler introduces us to the long-blooming stars of the spring garden, the hardy annuals – those flowers that thrive when they are planted during cool conditions (instead of waiting until the warmth of spring). Forget “Some Like It Hot,” she advises, and give them a cool start. Plant them in the right spot at the right time, nestle their roots deep into rich organic soil, and stand back. In no time at all, you'll have a low-maintenance, vibrant spring flower garden that keeps on blooming when other annuals are dead and gone.
