Old Dogs, New Math Apr 06 2020 "Perfect for parents who want to understand the different methods to do arithmetic their children are learning-and why they are being taught that way." -Keith Devlin, award-winning Stanford University mathematician "Can you help me with my math homework?" If this question fills you with fear (or even panic), then Old Dogs, New Math is here to help! Gone are the days when elementary school students simply memorized their times tables and struggled through long division. Today, students are expected not just to find the right answer, but also to use the best method-and to explain why it works. If your attempts to help your child are met with "That's not how the teacher does it," then it's time to take the stress out of math homework. Old Dogs, New Math demystifies Common Core math for parents, including: Number lines, place value and negative numbers Long multiplication and division Fractions, percentages and decimals Shapes, symmetry and angles Data analysis, probability and chance Complete with sample questions, examples of children's errors, and over 25 games and activities, Old Dogs, New Math will not only help you and your child subtract on a number line or multiply on a grid-but also help you discover math all around you, and have fun doing it!

Tools To Help Your Children Learn Math: Strategies, Curiosities, And Stories To Make Math Fun For Parents And Children May 20 2021 Parents need to take an ever-increasing role in their child's learning experience. However, what to do and how to do it is often not prescribed to the parents. This book offers a wide variety of aspects related to the parent's role as a support to their child's learning of mathematics, and above all appreciation for the subject. The uniqueness of this book is that we provide the parent the information they need about how mathematics is taught in today's early grades. We then provide a plethora of ideas that can motivate children with information beyond that which is taught in the classroom.

Making Sense of Math May 08 2020 In Making Sense of Math, Cathy L. Seeley, former president of the National Council of Teachers of Mathematics, shares her insight into how to turn your students into flexible mathematical thinkers and problem solvers. This practical volume concentrates on the following areas: * Making sense of math by fostering habits of mind that help students analyze, understand, and adapt to problems when they encounter them. * Addressing the mathematical building blocks necessary to include in effective math instruction. * Turning teaching "upside down" by shifting how we teach, focusing on discussion and analysis as much as we focus on correct answers. * Garnering support for the changes you want to make from colleagues and administrators. Learn how to make math meaningful for your students and prepare them for a lifetime of mathematical fluency and problem solving.
