[Voice and Agency](#) Mar 30 2020 Despite recent advances in important aspects of the lives of girls and women, pervasive challenges remain. These challenges reflect widespread deprivations and constraints and include epidemic levels of gender-based violence and discriminatory laws and norms that prevent women from owning property, being educated, and making meaningful decisions about their own lives—such as whether and when to marry or have children. These often violate their most basic rights and are magnified and multiplied by poverty and lack of education. This groundbreaking book distills vast data and hundreds of studies to shed new light on deprivations and constraints facing the voice and agency of women and girls worldwide, and on the associated costs for individuals, families, communities, and global development. The volume presents major new findings about the patterns of constraints and overlapping deprivations and focuses on several areas key to women s empowerment: freedom from violence, sexual and reproductive health and rights, ownership of land and housing, and voice and collective action. It highlights promising reforms and interventions from around the world and lays out an urgent agenda for governments, civil society, development agencies, and other stakeholders, including a call for greater investment in data and knowledge to benchmark progress.

[Building Back Better After the 2015 Nepal Earthquake](#) Nov 18 2021 This book explores the reconstruction after the 2015 Gorkha Nepal earthquake, on the basis of the author's first-hand experience that has been validated with empirical evidence. Unlike other advocacy and academic literature, the book takes readers close to the ground where the activities took place. This book describes Nepal's efforts to rebuild private housing from the preparatory to the concluding stages, and the obstacles faced and overcome along the way. It assesses the consequences of the policy level decisions and also examines the relevance, utility and future use of damage assessment surveys that were carried out in the country. In addition, lessons from the housing grant payment through the banking system, impending reasons for housing non-compliance to building standards, experimentation with resilient resettlements and unresolved issue of urban regeneration have been also delved in. The ground realities revealed that the aid architecture requires further carving out. The last three chapters have attempted to capture the macro level picture of the reconstruction and recovery endeavors: contribution to national economy, structural resilience and comparative overview of Nepal's delivery in global context. As an intimately involved professional with the 2015 Nepal

Earthquake, Dr Shrestha is the authority from whom a holistic understanding can be attained regarding the response of Nepal's state and society to the Earthquake. Handbook of Inclusive Education for Educators, Administrators and Planners Jun 25 2022 The Handbook of Inclusive Education advocates the importance of inclusive education. It presents a collection of various models, practices, experiences, first-hand accounts and success stories from India, where inclusive education has been implemented. It also identifies and analyzes challenges to the Indian education system, while offering possible strategies and solutions for all education systems implementing inclusion policies. The book is divided into three parts. Part one gives an overview of the concept and practice of inclusive education and also discusses legal and policy aspects. Part two describes innovative practices in the implementation of inclusive education for children with a wide range of disabilities, such as: - Hearing Impairment - Visual Impairment - Orthopedic Impairment - Learning Disability - Cerebral Palsy - Intellectual Impairment - Autism Spectrum Disorders. Part three discusses current developments in the fields of inclusive education and describes what a 'real' inclusive school should be like.

SAS2 Oct 17 2021 SAS2: A Guide to Collaborative Inquiry and Social Engagement represents a groundbreaking international effort to support the creation and mobilization of practical, authentic knowledge for social change. The guiding principle behind SAS2 (Social Analysis Systems, www.sas2.net) is that group dialogue and social inquiry are crucial for local and global development. Social issues must be addressed socially and in a multistakeholder mode, not by private interests and experts alone, and the insights that emerge must be fully integrated into processes of knowledge production, planning, and decision-making. Part 1 outlines the concepts and skillful means needed to support multistakeholder dialogue and engagement. It also provides detailed instructions on how to integrate and ground collaborative inquiry in the projects, plans, evaluations and activities of multiple stakeholders. Part 2 presents a selection of techniques for collaborative inquiry and examples of real-life applications in South Asia and Latin America. The examples focus on a range of issues including land tenure, local economic development, agriculture, forestry, fisheries, and organizational development. This book will be an invaluable resource for researchers, consultants, facilitators and activists working with people to solve problems and support inclusive inquiry and decision-making. It will also be useful to scholars and academics studying and teaching participatory action research in the social sciences.

Participatory Rural Appraisal Jan 20 2022 Participatory Rural Appraisal (PRA) methods, now known as Participatory Learning and Action (PLA), have been extensively used in development research, action and evaluation. This book is based on the author's decade-long intensive field experience—each method is explained by drawing on field-based illustrations. The book vividly describes the methods of PRA, highlighting the essential features as well as the application, merits and limitations of each method. *Participatory Rural Appraisal: Principles, Methods and Application* outlines the application of PRA methodology in areas like participatory poverty assessment, sustainable livelihood analysis, assessment of hunger, vulnerability analysis, organizational analysis, monitoring and evaluation. Separate sections on SWOT analysis and on the method of interview and dialogue are also included in the book. Besides, the author has provided guidelines for sector-wise application of PRA, which would serve as a ready reference for students and practitioners alike. A chapter on the roles of members of a PRA team is another key feature of this book, which would be immensely valuable for students, researchers and academicians working in the areas of social work, rural development, agriculture, and environmental science, and also for NGO workers and trainers and researchers in the development field.

ModiNomics: Inclusive Economics Inclusive Governance Jul 26 2022 The last decade of Gujarat and the rise of Narendra Modi first as the Chief Minister and then as a national leader being the Prime Ministerial candidate of the Bharatiya Janata Party (BJP) has catapulted the Gujarat model and Narendra Modi into the national and international limelight. In the interim, especially in the last few years, there has been much literature on Gujarat and Narendra Modi. However, much of it is presented from a personality or political perspective. In the run-up to the national elections around May 2014, public interest goes beyond politics and personality. There is interest on some of the pioneering work done in Gujarat around governance and Panchayati Raj. The nation wants to know how Narendra Modi and his team of bureaucrats have been able to make a difference. There is curiosity about the interplay between politics, economy and policy. Crucially, the world wants to know if the Gujarat model is scalable to the national level. However, today's literature on Gujarat and Modi fails to cover his economics and governance vision. In the hurly-burly of politics, the innovations, the unique models and policies that Gujarat has seen over the last decade seem to be getting overlooked. This book presents the vision behind Modi's thought process, and the action on the ground in terms of actual field reports and case studies. The book seeks to highlight the economic and development strategies adopted by Modi. The learnings from these would stand other states in good stead. Under Modi, Gujarat stands out for its long-term vision and impeccable execution. Governance is clearly not just about lofty speeches and promises but actual delivery; as is economics. One of the key ideas that the book brings out is that Modi is a proponent of both Inclusive Economics as well as Inclusive Governance. This in a sense is the essence of ModiNomics, a new phenomenon, which is discussed in the book. Sameer Kochhar has been interacting with Gujarat and Gujarat Government officials since 2003. For much of the last decade, the annual Skoch Summits organised by Kochhar have featured case studies on Gujarat's governance. Books, articles and reports have been done. Field assessments have been carried out. He has captured the voices of the common man. He has also interacted with Modi to know his mind on Gujarat and the nation first hand. This book is an outcome of all the above and tells the Gujarat story in all its riveting details focusing on how Modi has brought about a sea change through his unique brand of ModiNomics.

NREGA and Quality of Life of Beneficiaries May 24 2022 With NREGA scheme India embarked on an ambitious attempt to battle poverty by guaranteeing employment to those who demand work. It also aims at transforming the rural areas by scaling up the quality of life of people with guaranteed minimum wages and capital formation within rural economies which can redress poverty and boost overall development in the country. This Book focuses on the positive impacts NREGA brought into the households with the wage payment availed by its beneficiaries. Impact of NREGA scheme on the overall quality of life of its beneficiaries is been examined here by gauging different indicators associated with the improvement of overall quality of life. The indicators assessed are impact on economic condition, purchasing power and consumption of food and non-food items, health & nutrition, education of children, household and cultivable asset's creation, social life of beneficiaries in terms of their participation in social and religious programmes and organizations and impact on out migration. Findings reveal that NREGA has brought changes in the lives of beneficiaries especially in their purchasing power and consumption pattern.

Deepening Democracy Jun 13 2021 The forms of liberal democracy developed in the 19th century seem increasingly ill-suited to the problems we face in the 21st. This dilemma has given rise to a deliberative democracy, and this text explores four contemporary cases in which the principles have been at least partially instituted.

Multiple Meanings of Money Jul 14 2021 Multiple Meanings of Money: How Women See Microfinance analyses what microfinance and money mean to women; focusing on the perspectives of individual women and of women-only groups. It explores women's money management strategies, group dynamics and learning processes in groups. It discusses the divergence in the perspectives of external intervening agencies and those of women who are members of self-help groups (SHGs). Based on case studies and participatory research methods, the discourse spans issues from macro to micro level and focuses on women as agents of change in their own livelihoods. The book will be an asset for professionals working in the sectors of microfinance and gender issues, as well as for policy makers. It will be equally useful for those studying and engaged in social work.

Sex and the Supreme Court Aug 23 2019 'The Constitution [of India] has within it the ability to produce social catharsis...' At 12.12 p.m. on 6 September 2018, the Supreme Court of India created history by reading down Section 377 – reversing an archaic law laid down by the British in 1860 and decriminalizing homosexuality for the first time in modern India. Yet, this is not the only ruling that the Supreme Court has made in recent times championing the rights of an individual to her or his identity and dignity. From empowering the transgender community and lending teeth to the prevention of sexual harassment of women at the workplace, to protecting the privacy, rights and dignity of women and minorities on issues such as interfaith marriages, entering the Sabarimala temple, the controversial triple talaq and the striking down of the adultery law – the highest court of the land has firmly placed the individual at the centre of the constitutional firmament, and set a course for progressive societal reform. This remarkable collection of writings by legal luminaries is the only book to offer sharp insights into each of these crucial rulings. Justice M.B. Lokur writes on the issues that affect the transgender community; Justice B.D. Ahmed elucidates on Muslim law in the modern context; and Justice A.K. Sikri addresses the fundamental concept of dignity, which binds together all the essays in this book. Some of the best-known names in Indian law – Mukul Rohatgi, Madhavi Divan, Menaka Guruswamy, Arundhati Katju and Saurabh Kirpal – offer legal perspectives of judgements on sex, sexuality and gender. From petitioners like Ritu Dalmia, Keshav Suri and Zainab Patel, we hear personal narratives of being a part of the LGBTQ community in India, while journalist Namita Bhandare provides a powerful account of the struggle against sexual harassment. An unprecedented documentation of the rulings that have set a standard for the rights and liberties of sexual minorities and women in India, Sex and the Supreme Court is also an invaluable record for posterity – for it reveals the power of the country's courts to uphold the privacy, dignity and safety of its citizens.

Institutional Change and Power Asymmetry in the Context of Rural India Dec 19 2021 This book explains how to bring about institutional change and foster new institutional structures (institution building) by resolving power

inequities in a rural ecosystem in India, and advocates the identification of an appropriate institutional champion to make this happen. The book develops a power-asymmetry-based framework and argues that a champion with the right attributes and the 'ability' to 'convene' people over a social issue can only succeed if he/she can resolve or reduce the deep-rooted societal power asymmetries within that community. It also presents four case studies that indicate how such social change is typically spread over a long period of time.

Local Democracy and Development Aug 15 2021 In this definitive history, a key figure in the People's Campaign in Kerala provides a unique insider's account of one of the world's most extensive and successful experiments in decentralization. Launched in 1996, the campaign mobilized over 3 million of Kerala's 30 million people and resulted in bottom-up development planning in all 1,052 of its villages and urban neighborhoods. The authors tell a powerful story of mass mobilization and innovation as bureaucratic opposition was overcome, corruption and cynicism were rooted out, and parliamentary democracy prevailed. Considering both the theoretical and applied significance of the campaign in the context both of India's development since independence and of recent international debates about decentralization, civil society, and empowerment, the book provides invaluable lessons for sustainable development worldwide.
