Slave Stealers Jan 31 2020 Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

A Grimoire Dark Apr 15 2021 An Orphan Girl. A Hellish Spirit. A fight for more than just her life... New Orleans, 1963. When Del Larouche leaves the St. Augustine orphanage, she is desperate to build a normal life for herself and Jimmy, the mentally handicapped boy she spent years protecting. But when a hellish spirit is raised from the dark swamps, unimaginable horrors begin to prey on the lost souls of the Crescent City, and Del ' s soul is the most coveted. When she learns the truth of her secret heritage, she is faced with a choice: forego the gift she was born with for the normal life she dreams of or embrace her birthright and the dark consequences that follow. *A Grimoire Dark* is the spine-tingling first book in *The Spirit Hunter* supernatural thriller series. If you like black magic, strong female protagonists, and urban legends, then you ' ll love this chilling tale.

Transmediality in Independent Journalism Apr 27 2022 Transmediality in Independent Journalism investigates mainstream journalism and its escape routes to independence through transmedia strategies. Within the scope of the latest debates in Turkey, the author argues that the function of transmediality in Turkish journalism is gradually shifting from being only a

commercial entity to becoming a political system for social change, a survival mechanism for independent journalists to reach out to diverse audiences, and gain back the public trust. Bringing a fresh perspective to recent studies on cultures of transmediality along with an in-depth analysis of three contemporary Turkish cases, the book: Builds upon questions of whether transmedia storytelling can offer a support system to construct an alternative news media world in a political context such as Turkey ' s Examines how transmedia storytelling can reach places the mainstream news media can ' t control Explores whether transmedia storytelling can sustain the survival of an independent journalist in Turkey ' s political context Looking beyond the case of Turkey, this study will be an important addition to the literature on rethinking journalistic form and practice, teaching transmedia strategies, and social communication. It will be of great benefit to students and scholars of journalism studies, transmedia studies, and media and communication studies.

**Plain Roots Jan 13 2021** Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.

**Cisco ASA, PIX, and FWSM Firewall Handbook Sep 20 2021** Cisco ASA, PIX, and FWSM Firewall Handbook, Second Edition, is a guide for the most commonly implemented features of the popular Cisco® firewall security solutions. When Organization Fails Nov 22 2021 When Organization Fails: Why Authority Matters develops the study of authority as an area of investigation in organizational communication and management. As a research topic, authority has rarely been addressed in depth in the management and organizational communication literature. It is critical, however, to maintaining unity of purpose and action of the organization, and it is frequently cited by organizational members themselves. Utilizing two case studies, examined in depth and based on the accounts of the individuals involved, authors James R. Taylor and Elizabeth J. van Every explore the pathology of authority when it fails. They develop a theoretical foundation that aims to illuminate authority by positioning it in communication theory. This volume sets the stage for a new generation of scholars who can make their reputations as experts on authority, and is intended for scholars and graduate students in organizational communication, leadership, and discourse analysis. It also offers practical insights to consultants and management experts worldwide.

Designers' Guide to EN 1993-1-1 Dec 24 2021 After some 25 years in preparation the key parts of EN 1993-1-1 Eurocode 3: Design of steel structures General rules and rules for buildings have now been finalised. Eurocode 3 covers many forms of steel construction and provides the most comprehensive and up-to-date set of design guidance currently available. Throughout, this book concentrates on the most commonly encountered aspects of structural steel design, with an emphasis on the situation in buildings. Much of its content is therefore devoted to the provisions of the Part 1.1: General rules and rules for buildings of EN 1993. This is, however, supplemented by material on loading, joints and cold-formed design. For each of the principal aspects covered, the book provides background to the structural behaviour, explanation of the codified treatment including departure from existing practice (BS 5950), and numerous worked examples. This Guide should serve as the primary point of reference for designing steel structures to Eurocode 3.

YUSA Guide to Balance, Mind, Body, Spirit Jun 05 2020 Within this 333-page guidebook, you will find the knowledge and practical steps upon implementation can help one achieve a natural state of abundance and experience conscious expansion. While other books focus on the "the secret" of the law of attraction, you will learn that there is far more available to you than material possessions and societal status. Inside these pages are revealed tools readily available to you that you may not even be aware of. This book is organized around the Mind, Body, and Spirit-the three spheres of being that need to operate in equilibrium for true knowledge of self, accelerated self betterment and the manifestation of desire. Written from a state of enlightenment reached only after deep meditation and facing life's many hardships, this guidebook presents full details of the metaphysical aspects of the mind and thoughts, the ego and self-identification, presence and creation, mindfulness, the anatomy of fear, chakra energy systems and healing, exercise and well-being, mineral-supplemented diets, along with the benefits of juicing, detoxing, clean eating, and living on a plant-based diet.

Concrete in Aggressive Ground Mar 03 2020 This BRE Special Digest provides practical guidance on specifying concrete for use in natural ground and in brownfield locations. The procedures for ground assessment and concrete specification cover the fairly common occurrence of sulfates, sulfides and acids and also the more rarely occurring aggressive carbon dioxide found in some ground and surface waters, which affects concrete foundations and sub-structures. This edition has been revised to reflect thinking and changes to British Standards. It introduces the phenomenon of chemical attack of concrete in the ground, describes modes of chemical attack and discusses the mechanisms of the principal types, including sulfate and acid attack, and the action of aggressive carbon dioxide. It then gives guidance on assessing the chemical aggressiveness of the ground, and recommendations for specifying concrete for general cast-in-situ use in the ground. It also gives recommendations for specifying surface carbonated precast concrete for general use in the ground, and includes design guides for specification of specific precast concrete products, including pipeline systems, box culverts and segmental linings for tunnels and shafts. The guidance applies to both buildings and civil engineering construction.
