**Financial Management in the Sport Industry** Jun 11 2021 Financial Management in the Sport Industry provides readers with an understanding of sport finance and the importance of sound financial management in the sport industry. It begins by covering finance basics and the tools and techniques of financial quantification, using current industry examples to apply the principles of financial management to sport. It then goes beyond the basics to show how financial management works specifically in sport - how decisions are made to ensure wealth maximization. Discussions include debt and equity financing, capital budgeting, facility financing, economic impact, risk and return, time value of money, and more. The final section focuses on sport finance in three sectors of the industry - public sector sports, collegiate athletics, and professional sport-providing in-depth analysis of financial management in each sector. Sidebars, case studies, concept checks, and practice problems throughout provide practical applications of the material and enable thorough study and practice. The business of sport has changed dynamically since the publication of the first edition, and this second edition reflects the impact of these changes on financial management in the sport industry. New to this edition are changes to reflect the global nature of sport (with, for example, discussions of income tax rates in the Premiere League), expanded material on the use of spreadsheets for financial calculations, a primer on accounting principles to help students interpret financial statements, a valuation case study assignment that takes students step by step through a valuation, a new stadium feasibility analysis using the efforts of the Oakland Raiders to obtain a new stadium, a new economic impact example focusing on the NBA All Star game, and much more.

*International Public Financial Management* Nov 23 2019 Running public sector organizations requires specialist accounting and finance skills to overcome the unique challenges of the sector. Citizens rely on their governments to provide a wide range of public services from an inevitably limited budget and therefore the better that the public money is managed the more services that can be delivered. Just as there is no single best way to manage a business there is no single best way to manage public finances. Co-published by the Chartered Institute of Public Finance and Accountancy (CIPFA), the world's leading professional public finance accountancy body, *International Public Financial Management: Essentials of Public Sector Accounting* provides an expert introduction to public sector accounting and finance. This book was conceived to accompany CIPFA's International Public Financial Management (IPFM) qualifications as a resource for students that seeks to capture the essential elements of the modules they study, and reflects good practice as put forward by CIPFA in its examination syllabuses. Students of public management and public sector accounting will find this a useful text. Practitioners working in the public sector will also find this concise book vital reading in seeking value for money in providing public services.
