The BMW Group Home Plant in Munich Oct 02 2022 Rund einhundert Jahre Werks-geschichte: Auf 272 Seiten spannt die Publikation den Bogen vom Beginn der Otto-Werke 1913 bis hin zu den aktuellsten Investitionen, die das Werk bis 2018 in entscheidenden Bereichen neu positionieren werden. Die Autoren zeichnen das faszinierende Bild eines einmaligen Fertigungsstandortes der weltweit berühmten Marke BMW. Ein modernes Automobil- und Motorenwerk mitten in der Metropole München – das BMW Group Stammwerk ist die Keimzelle der BMW Produktion, hier verbinden sich die lange Tradition des Konzerns und eine hochmoderne Fertigung. Mit einer Vielzahl historischer und aktueller Aufnahmen ermöglicht die Publikation einen spannenden Blick hinter die Kulissen, skizziert die Wendepunkte in der Geschichte des Werkes und lässt ehemalige sowie aktive Mitarbeiter selbst zu Wort kommen. Vorgestellt werden die Industriearchitektur im Wandel der Zeit sowie die stetige Modernisierung der Fertigungsanlagen, um dem neuesten Stand der Technik immer einen Schritt voraus zu sein.

Superconducting Devices and Their Applications Oct 10 2020 Since the discovery of high-temperature superconductivity considerable progress has been made in research and development of superconductive electronic devices. This fact is reflected by the large variety of contributions to the 4th International Conference on Superconducting and Quantum Effect Devices and their Applications - SQUID'91. This comprehensive proceedings volume covers Josephson junctions, SQUIDS, radiation detectors, flux-flow transistors.. The main applications are contained in the chapters on biomagnetic instrumentation, metrology and rf-applications. The purpose of this volume is to provide an up-to-date reference book on the status of this rapidly changing and promising field of electronic device research on the basis of low- and high-temperature materials.

Lloyd's Register of Shipping 1921 Steamers Aug 08 2020 The Lloyd's Register of Shipping records the details of merchant vessels over 100 gross tonnes, which are self-propelled and sea-going, regardless of classification. Before the time, only those vessels classed by Lloyd's Register were listed. Vessels are listed alphabetically by their current name.

Vehicle Feedback and Driver Situation Awareness Apr 27 2022 A potentially troubling aspect of modern vehicle design – some would argue - is a trend for isolating the driver and reducing vehicle feedback, usually in the name of comfort and refinement but increasingly because of automation. There is little doubt cars have become more civilised over the years, yet despite this, the consequences of driver behaviour remain to a large extent anecdotal. Readers will have heard such anecdotes for themselves. They usually take the form of drivers of a certain age recalling their first cars from the 1970s or 80s, in which "doing 70 mph really felt like it". The question is whether such anecdotes actually reflect a bigger, more significant issue that could be better understood. Related questions have been explored in other domains such as aviation, where the change to 'fly-by-wire' did indeed bring about some occasionally serious performance issues that were not anticipated. Despite some clear parallels, automotive systems have been left relatively unstudied. The research described in this book aims to explore precisely these issues from a Human Factors perspective. This means connecting the topics of vehicle feel, vehicle dynamics, and automotive engineering with the latest research on driver situation awareness. The problem is explored experimentally from a variety of theoretical viewpoints but the outcomes are consistently practical. Here we have a promising new avenue along which the driver experience can be enhanced in novel and insightful ways. Tools and templates are provided so that engineers and designers can try different ways to boost vehicle safety, efficiency and enjoyment from a human-centered perspective. Association of American Publishers (AAP) Finalist for the 2019 PROSE Award Features Diagnosis of how vehicle feel impacts driver situation awareness, and how this could aid future vehicle designs Multi-theory approach to driver situation awareness, and how

different views of this important concept give rise to different insights Comprehensive analysis of situation awareness in driving, the information requirements of drivers, and how these needs can be supported Practical descriptions of how state-of-science Human Factors methods have been applied in practice

Lloyd's Register of Shipping 1912 Steamers Jul 07 2020 The Lloyd's Register of Shipping records the details of merchant vessels over 100 gross tonnes, which are self-propelled and sea-going, regardless of classification. Before the time, only those vessels classed by Lloyd's Register were listed. Vessels are listed alphabetically by their current name.
